

## Addendum to ARB rules for Delray Villas Plat 2

These are rules in addition to the set of revised rules that you all received in February.

1. No storm shutters are to be down (except during a storm) while the home is occupied. (Shutters down while occupied is against fire code and creates a dangerous situation.) If you are away for a period of time during Hurricane season the shutters may be put down until you return.
2. No privacy shrubs over 5 feet high.
3. No Koi ponds or fountains outside. ( stagnant water breeds mosquitos)
4. No bird feeders- (they attract rodents and ants)
5. Front window must have decorative shutters on it.
